

RAJU RAM

☎ 8448504975 ✉ rajuram99iitkgp@gmail.com in [Linkedln](#)

EDUCATION

- **Indian Institute of Technology Kharagpur** Kharagpur, West Bengal
Integrated MSc (Chemistry) | cgpa - 7.35 Aug 2018 - Apr 2023
- **Jawahar Navodaya Vidyalaya** Jalore, Rajasthan
Higher Secondary, CBSE; Percentage: 90.2% July 2016 - May 2018
- **Jawahar Navodaya Vidyalaya** Jalore, Rajasthan
Secondary, CBSE; cgpa: 9.80 Feb 2010 - May 2016

EXPERIENCE

EXL, Gurugram | Data Scientist

[Oct 2023 - Present]

Marketing Mix Modeling Viewership Analytics Dashboard | Python, Streamlit, Plotly

- Built a marketing **analytics dashboard** to analyze channel effectiveness and viewership contribution across 300+ sports and games
- Analyzed marketing spend efficiency using response curves, **ROI metrics**, and contribution modeling techniques
- Automated **KPI reporting and visualization** workflows for executive decision-making using **Streamlit and Plotly**
- Identified high-spend/low-efficiency campaigns and optimization opportunities through channel-level performance diagnostics
- Developed **interactive dashboards** with dynamic filtering, trend analysis, and business insight generation for non-technical stakeholders

Databricks Data Engineering Platform | Python, SQL

- Executed end-to-end **ETL** processes using **Python** and **SQL** to extract, transform, validate and load data from multiple sources
- Built metadata-driven **Databricks** notebooks to automate ETL pipelines, minimizing manual effort and supporting dynamic workflows
- Managed and monitored **ADF** pipelines for automated scheduling, orchestration, and error tracking of ETL workflows
- Implemented data quality checks, and **optimized SQL** transformations to boost performance and efficiency in Databricks pipelines

Agentic RAG Chatbot for Asset Management Analytics

- Developed a **Gen-AI** powered chatbot for asset management company leveraging multiple specialized **agents** to address complex queries
- Implemented advanced **parsing** for precise table extraction and integrated rerankers to enhance retriever performance and final responses

GenAI Based Marketing Content Generation

- Developed a **Gen-AI** solution to create personalized email campaigns using client segmentation data, **email content** and **templates**
- Used advanced **prompt engineering** to generate tailored emails, enhancing engagement, segmentation accuracy and conversion rates

Predictive Target Customer Scoring Model for Marketing Optimization

- Aggregated and transformed **raw text data** from three independent sources across three states into a structured **SAS database**
- Developed a machine learning **target prioritization** model on the unstructured raw text dataset after rigorous exploratory data analysis
- Improved the accuracy by tuning the **hyperparameters** and used a **grid search** to get the optimized value of hyper parameters
- Deployed a machine learning model in **production environment**, ensuring smooth integration and scalability for operational performance
- Designed and managed **data pipelines** for quarterly datasets and **model validation** to ensure predictive model robustness and accuracy

Chi SquareX, Bengaluru | Machine Learning | Internship

[May 2022 - Jul 2022]

- Developed a machine learning image classification model for the USPS handwritten dataset after exploratory data analysis
- Achieved a global accuracy of **92.2%** for the **10 classes** using the **KNN classifier** after optimal hyperparameter tuning
- Studied the role of the split of the **training vs testing** data for classification and used **K-fold cross validation**

Chi SquareX, Bengaluru | Software Development | Internship

[May 2021 - Aug 2021]

- Created a **3D graphics** program capable of displaying parametric objects as wire-mesh with different camera angles
- Used Three Dimensional Transformations such as **translation, rigid body, similarity, affine** and **projective**
- Designed polynomial **Bezier Curves** along with **B-Spline Functions** using **OOPs concepts in Python**

PROJECTS

Database Management Project

[Dec 2020 - Jan 2021]

- Developed a Banking management students holder for new customers to help them fill the KYC form and stores in database
- Used frameworks like **sqlite3** for **database management** and **tkinter** for creating a **GUI platform** for user friendliness

TECHNICAL SKILLS

Programming languages C, C++, Python, SQL, Pyspark

Cloud Technologies: AWS, AZURE

Libraries Pandas, keras, sklearn, pyTorch, NTLK, Tensorflow, OpenCv **Software:** Excel, Databrick, Git, Tableau, SAS, Spark

POSITION OF RESPONSIBILITIES

Secretary Athletics Subcommittee | Technology Students' Gymkhana | IIT Kharagpur

[Apr 2019 - Jul 2020]

- Supervised and managed the budget of **Rs. 3,72,000** for the overall activities of **athletics IIT Kharagpur**
- Efficiently resolved the concerns and conflicts of all the athletes by **effective communication** and **leadership** traits

Core Team Member | Inter IIT Sport Meet | IIT Kharagpur

[Apr 2019 - Dec 2019]

- Successfully conducted one weeklong the **Inter IIT Athletics Meet 2019** in between **23 IITs** for **both boys and girls**
- Mentored and supervised the team of **10 CTM** for the **planning, operation, and execution** of the sporting extravaganza
